

## **Data Privacy Policy**

We highly value the protection of your data and ensure that all our processes comply with the highest security standards. Our data infrastructure is carefully designed to guarantee both the safety and compliance with international standards.

## **Regional Data Hubs**

We will implement regional data hubs to optimize the efficiency and security of your data. This enables us to manage data locally contributing to enhanced protection and compliance with relevant laws and regulations.

## **Data Storage and Security**

Your data is currently stored in Ireland, a country known for its robust compliance with EU data protection standards and regulations. Ireland is recognized as a secure EU country for data, ensuring that your data is processed in a safe and responsible manner.

## **ISO 27001 Compliance**

We fully comply with ISO 27001 requirements, the international standard for information security management systems. This ensures that all processes and procedures related to data processing meet strict security standards to maintain the confidentiality, integrity, and availability of data.

## **Role of Storecove**

Storecove acts as a processor of invoices, meaning that we process invoice data according to your instructions and in compliance with applicable laws and regulations. We take all reasonable measures to ensure that data processing is conducted safely and responsibly. Our commitment to data security and privacy remains a priority, and we continue to actively work on enhancing our measures to protect your data and uphold the highest standards.
